(e) This subsection applies to the reimbursement of sheriffs for the cost of incarcerating in county jails committed persons convicted of felonies to the extent that the committed persons are incarcerated for more than five (5) days after the date of sentencing. The county auditor for a county shall annually compute the average daily cost to the county in the preceding calendar year for the custody, care, and confinement of all persons incarcerated in the county jail using the methodology established by the state board of accounts. Not later than March 1 of each year, the county auditor shall certify the average daily cost computed under this subsection to the department. The certification must be in the form prescribed by the state board of accounts. The department shall use the average daily cost certified to the department as full reimbursement to the county for the daily care, custody, and confinement in the county jail of committed persons convicted of felonies and incarcerated in the county jail for more than five (5) days after the date of sentencing. In addition to the per diem, the state shall reimburse the sheriffs for any expenses incurred in providing medical care to the convicted persons. However, if the sheriff or county receives money with respect to a convicted person (from a source other than the county), the per diem or medical expense reimbursement with respect to the convicted person shall be reduced by the amount received.
